

I have been listening to KLOVE in the OKC, OK area for about a year now. It has given me alot of encouragement to get through many days that have been not so great. My children now listen to KLOVE all the time, and it's great to hear my teenagers sing along with me to the songs on the radio, and know that these songs are songs praising Jesus!!!!!! If you were to take KLOVE from me and my family, I do believe it would a great loss. This is the only Christian station in my area that has music that I can listen to. We have other stations that are more "heavy rock" Christian music, and I cannot handle that kind of music. Where I work, we are allowed to listen to the radio, and I have KLOVE on all day, as well as many of my coworkers. Many desks have KLOVE turned on throughout the day. KLOVE also keeps us up-to-date on activities in my community that are Christian related, so I can be sure that my children and I support our church and the community just like God inteded for us.

Thank you for listening, and please keep our KLOVE alive!
